Status MSc Data Science Student at GISMA University Berlin • Resident in Berlin
Work Authorization Legal right to work in Germany (Werkstudent status • No visa sponsorship required)

JOB APPLIED FOR
Werkstudent*in IT – Softwareentwicklung, Cloud & AI • Mercedes-Benz Group AG (Berlin 10243, Germany)

POSITION PERSONAL STATEMENT

Results-driven Software Engineer and current MSc Data Science student at GISMA University Berlin, currently residing in Germany. Gaining German industrial experience working part-time at Formel D on the Tesla Gigafactory project, while independently architecting and deploying AI, CRM, and full-stack systems. Seeking a Werkstudent, Internship, or Part-Time role in Data Science, Machine Learning, or Product Analytics in Berlin.

WORK EXPERIENCE

2025 – Present

Quality Control Inspector (Part-Time · Tesla Project)

Formel D Group • Berlin / Brandenburg, Germany

- Conduct technical quality control, precision verification, and defect inspection on Tesla vehicle components adhering to strict German automotive standards.
- Perform standardized visual and optical quality audits, logging deviations and ensuring zero-defect manufacturing compliance.
- Collaborate in cross-functional German manufacturing and quality operations at Gigafactory Berlin-Brandenburg.

Business or sector Automotive Engineering, Quality Assurance & Manufacturing

2024 – Present

Independent Developer · Product Builder

Self-employed • Berlin / Remote

- Built **Auslandly Consultancy CRM** using React, Supabase, and PostgreSQL with real-time data sync and client lifecycle management.
- Developed an **AI Germany Navigation App** in React Native with LLM integration to help international newcomers navigate complex German bureaucratic procedures.
- Architected and deployed the **Antigravity Autonomous LinkedIn AI Engine**: a 24/7 research-first LinkedIn automation agent featuring a 100-point AI scout, Canva-quality visual generation, deterministic screener banking, and official REST API v202610 publishing.

Business or sector Software Products, AI Applications & Autonomous Agent Systems

Sep 2024 – Aug 2025

Software Engineer

Crack-ED • Gurgaon, India

- Architected and deployed an LMS platform serving 1,000+ concurrent users, reducing system downtime by 35% and supporting 10,000+ student enrollments.
- Optimised 15+ critical SQL queries and implemented Redis caching, cutting average API response time from ~800ms to under 320ms — a 60% backend performance improvement.
- Automated end-to-end CI/CD pipelines using GitHub Actions, reducing deployment time from ~50 minutes to under 30 minutes — saving ~8 engineering hours per week.

Business or sector Educational Technology & Enterprise Software Platforms

Mar 2023 – Jun 2023

Data Science Intern

Innomatics Research Labs • Hyderabad, India

- Built an NLP healthcare chatbot handling 500+ query types, achieving 87% intent classification accuracy using Python and NLTK.
- Automated text preprocessing pipeline across 3 datasets totalling 50,000+ records, reducing manual preprocessing time by 20% (saving ~4 hours per sprint).

Business or sector Artificial Intelligence & Data Science Research

Dandu Purnachandra Madhukar

EDUCATION AND TRAINING

2026 – 2028 (Expected)

Master of Science (M.Sc.) in Data Science

EQF level 7

GISMA University of Applied Sciences • Berlin, Germany

- **Core Focus:** Advanced Data Science, Machine Learning, Statistical Inference, Predictive Analytics, Big Data Architectures.

2021 – 2024

Bachelor of Technology (B.Tech.) in Computer Science (AI & Machine Learning)

EQF level 6

Sai Spurthi Institute of Technology • Telangana, India

- **Relevant Coursework:** Machine Learning, Deep Learning, Neural Networks, Data Structures & Algorithms, Probability & Statistics, Database Systems.

PERSONAL SKILLS

Mother tongue(s): **Telugu** (Native)

Other language(s)

UNDERSTANDING		SPEAKING		WRITING
Listening	Reading	Spoken interaction	Spoken production	Writing
English				
B2	**B2**	**B2**	**B2**	**B2**
B2 – Upper Intermediate • Professional working proficiency				
Hindi				
B2	**B2**	**B2**	**B2**	**B2**
B2 – Upper Intermediate				
German				
A2	**A2**	**A2**	**A2**	**A2**
A2 – Elementary / Conversational German • Currently learning				

Levels: A1/A2: Basic user - B1/B2: Independent user - C1/C2: Proficient user
Common European Framework of Reference for Languages

Communication skills

- Strong technical and cross-functional communication developed by coordinating multi-role LMS platforms across students, instructors, and administrators at Crack-ED.
- Collaborative engineering within agile sprints across distributed data science teams at Innomatics Research Labs.

Organisational / managerial skills

- CI/CD sprint release management: automated GitHub Actions pipelines saving ~8 engineering hours weekly.
- Data preprocessing coordination: managed data cleaning workflows across 3 datasets and 50,000+ records.

Job-related skills

- **Machine Learning & AI:** Scikit-learn, Random Forest, Logistic Regression, basic TensorFlow, Exploratory Data Analysis (EDA), feature engineering, cross-validation.
- **Natural Language Processing:** NLTK, tokenization, stemming, text preprocessing, and intent classification pipelines (87% accuracy).
- **Backend & Database Optimization:** SQL query optimization (60% latency reduction), Redis caching, Django REST APIs, JWT + RBAC security.

Digital competence

SELF-ASSESSMENT				
Information processing	Communication	Content creation	Safety	Problem solving
Independent user (B2)	**Proficient user (C1)**	Independent user (B2)	Independent user (B2)	**Proficient user (C1)**

Levels: Basic user - Independent user - Proficient user • Digital competences - Self-assessment grid

- **ML / AI Stack:** Scikit-learn, TensorFlow (Basic), NLTK, Random Forest, Logistic Regression, NLP
- **Data & Analytics:** Python, Pandas, NumPy, SQL, PostgreSQL, EDA, Data Cleaning, Data Visualisation
- **Backend & Cloud:** Django, REST APIs, Redis, JWT Authentication, AWS EC2/S3, CI/CD (GitHub Actions), Docker (Basic)
- **Programming Languages:** Python, JavaScript, TypeScript, SQL

ADDITIONAL INFORMATION

Projects
Certifications
References

Tailored Key Projects (Targeting Mercedes-Benz Group AG):

- **AI Germany Navigation App:** Developed an AI navigation assistant to help international newcomers navigate complex German bureaucratic and registration processes. • **Impact:** Streamlined administrative workflows with deterministic multilingual guidance. *(Tech: React Native, LLM APIs, Python, Mobile UX)*
- **Antigravity Autonomous LinkedIn AI Engine:** Built 24/7 research-first LinkedIn automation engine with 100-point AI scout, Canva-quality visual generation, deterministic screener bank, and continuous CET scheduler. • **Impact:** Continuous autonomous reach across Germany and European Union tech ecosystems. *(Tech: Python, LinkedIn REST API v202610, OAuth 2.0, FastAPI/HTTPServer, Analytics Automation)*

Certifications:

- **Machine Learning Specialization:** Andrew Ng, Coursera
- **Python for Data Science:** Coursera
- **SQL for Data Analysis:** Coursera

ANNEXES

- GISMA University of Applied Sciences admission & enrollment verification (Berlin, Germany);
- B.Tech in Computer Science (Artificial Intelligence & Machine Learning) Degree Certificate and Transcripts;
- Course certificates for Machine Learning Specialization, Python for Data Science, and SQL for Data Analysis (Coursera);
- Verified GitHub technical repository codebases: github.com/purnachand812.
